Group Term Life Insurance Beneficiary Designation

Use this form to name the persons or entities you want to receive your life insurance proceeds after your death.

Things to know before you begin

- Completing this form replaces your existing beneficiary designations. Please provide details for **each** beneficiary, even if you have already given us this information in the past.
- Gather the name(s), date(s) of birth, Social Security/Tax ID number(s) and contact information for all of your beneficiaries.
- The beneficiaries you name on this form apply to your Group Term Life insurance coverage insured by MetLife.
- To name additional beneficiaries, attach a separate page. Provide the requested information including the beneficiary type (*primary or contingent*) and the % proceeds for each. Sign and date these page(s), making sure the date is the same as the date next to the signature on this form.
- · Please complete and return all pages or we can't record your choices.

To name separate beneficiaries for the Life or AD&D coverages in this section, photocopy this form and complete a different form for each type of coverage.

SECTION 3: About the Primary Beneficiaries

These parties are your first choice to receive the insurance proceeds after your death. If a primary beneficiary dies before you, we will divide their share(s) equally between the remaining primary beneficiaries.

- You must name at least one (1) primary beneficiary.
- Please check the box and complete the form fields for each beneficiary you name. Having accurate information for your beneficiaries ensures that we distribute the proceeds the way you want.
- Use the proceeds % field to tell us how you want us to distribute the proceeds. If you want a specific distribution, use whole numbers (*no fractions or decimals*) and make sure they (*and any listed on separate pages*) add up to 100%. To distribute them equally between your primary beneficiaries, leave **all** of the proceeds % fields blank.

If you make a mistake anywhere on this form, cross it out and initial it.
